Skin Care

Epicuren Signature Facial

This results oriented facial utilizes a unique protein enzyme that stimulates cell metabolism to dramatically improve the skin's appearance. Dramatically tightens and firms facial skin, increasing textural clarity and tone. **1 hour, \$85.**

30% Glycolic Refining Facial

Epicurens uniquely formulated 30% GlyPro Gel Professional Peel utilizes an advanced delivery system to slowly release glycolic acid into the skin, reducing the potential for acute inflammation and irritation. Glycolic effectively exfoliates lifeless cells, revealing new emerging skin which will allow for proper absorption of oxygen and nutrients; critical elements for healthy, vibrant skin. Actively address fine lines, acne, hyperpigmentation, and dry skin and witness results immediately with one treatment. Dramatic results are also achieved when this facial is given in a series and accompanied by a proper home care regime. **1 hour, \$80.**

Acne Clarifying Facial

This facial addresses the main areas of concern for clients dealing with acne: inflammation, bacteria oil control, exfoliation, and modulating oil production. Epicuren acne treatments utilize a unique combination of exfoliating enzymes, sulfur, and probiotics as an alternative to traditional methods, resulting in a clearer complexion. Results are most effective when done in a series and accompanied by the Simple Solution Kit-Clarify. **1 hour, \$70. 30 min, \$40.**

Microdermabrasion

A mechanical cosmetic technique used for exfoliation to remove the outermost layers of dead skin cells. This treatment can be used to decrease the appearance of fine lines, acne scars and hyperpigmentation. Removal of these skin cells can aid in the penetration of skin care products by up to 50% percent. **1 hour, \$80. 30 Min, \$50.**

Liquid Lift Peptide Facial

Mimic the effects of costly injections with this "Liquid Lift" treatment. This facial showcases Epicuren's most advanced anti-aging products, Bio Peptide Complex Serum, Pro Collagen +Serum Amplifier and the ultra-luxurious Ultima-Peptide Maximum Peptide Complex. Problem areas get a double dose of lifting and tightening ingredients accompanied by a relaxing, firming facial massage. Your skin will feel tight and look luminous. **1 hour, \$80**

European Facial

This invigorating treatment includes cleansing, steam, exfoliation, extractions, pressure point massage, a mask, serums, moisturizer and SPF. These products will be chosen according to your skin type and needs. The results will be a smooth, revitalized, healthier skin and, of course, a more relaxed you! **1 hour, \$70.**

Mini Facial

Thirty minutes of Heaven! All of the above mentioned less extractions. **30 Min, \$40.**

Back Facial

The hardest part of the body to reach needs pampering too! Cinnamon, vanilla, brown sugar scrub slough off dead skin followed by a massage with warm vanilla bean massage cream and a warm mineral mask accompanied by a scalp massage. A back facial is all you need to relax and feel so fresh and so clean, clean! **45 Min, \$65.**

Bacne Facial

Bacne; it happens. Thankfully there are treatments by professionals that can reach that area. Nature's most detoxifying ingredients; sulfur, propolis, bentonite clay, astringent and glycolic clear up unwanted bacne and let you get on with your life. Includes extractions. **45 min, \$65.**

Little Extras

Add on any of the following treatments to enhance your facial for only \$10. Or enjoy them alone for **\$20.**

Ultrasonic Vitamin C Collagen Eye Treatment

Vitamin C, collagen and peptides are absorbed by the skin around your eye. Product penetrates deeper into the skin after a gentle exfoliate and ultrasonic sound waves. This is followed by a cool mask to tighten the skin and reduce puffiness. A perfect pick me up for puffy, dark circled, tired eyes.

Peppermint Foot Treatment

Cinnamon, vanilla and brown sugar scrub slough off dead skin after softening up in warm towel booties. A relaxing foot massage with an invigorating peppermint, vanilla bean foot cream refreshes tired sore feet.

Glycolic Hand Treatment

30% Glycolic sloughs off dead skin on the hands and reveals younger, newer, more dewy looking skin. The glycolic is followed by a hydrating mineral mask to nourish and really make the skin glow.

Chemical Peels

All Peels are done with PCA SKIN Peels. Every client must have an in-office consultation before the type of peel is determined. Peels range between **\$70-\$120**.

Clinically researched formulations help reduce the depth of surface lines, smooth rough skin texture, treat skin discoloration and redness, and can assist in clearing acneic/blemished skin without the downtime often associated with traditional chemical peels.

Gentle ingredients such as alpha hydroxyl and acids (AHA), trichloroacetic acid (TCA), salicylic acid (BHA), resorcinol, retinol, polyphenol antioxidants, and skin brighteners, are carefully blended and work synergistically to remove dull, damaged surface layers and reveal your smooth, radiant, glowing skin that is hidden below the surface.

Modified and Enhanced Jessners

These gentle and innovatively blended formulations effectively exfoliate while brightening and inhibiting pigment production. They help repair and reduce breakouts, control oil and soften lines to provide a more even and smooth skin texture.

Blended TCA Peels

Our skin-friendly versions of these effective peels address various skin conditions without the discomfort and downtime associated with traditional TCA peels. These blends contain a variety of beneficial ingredients to help treat acne, hyperpigmentation, fine lines and wrinkles, while leaving the skin plump and hydrated. A formulation specifically for use on the body is also available.

Therapeutic Masks

The variety of corrective ingredients found in each of our therapeutic masks provide exfoliation, hydration and anti-inflammatory action, depending on the formulation chosen.

Retinoid Treatments

These unique cream formulations create an occlusive barrier, increasing the absorption of vitamins, antioxidants and other actives into the skin for maximum smoothing, tightening, and brightening benefits.

Peel Alternative Treatments

These highly effective treatments rejuvenate and keep skin free of pollutants and toxins. They are also useful between peel treatments to maintain glowing, clear and healthy-looking skin.

Waxing

All waxing is done with sensitive skin cream wax. A pre-oil is applied to prevent wax from adhering to the skin causing less sting. Applied pressure after each pull and a soothing/cooling lotion comforts skin after wax.
